

Roadside assistance

Your mobility is our priority

1. Your assistance, our guarantee of mobility

1.1. How it works

Have you suffered a breakdown or puncture? Is your vehicle immobilized following a traffic accident with material damage? Has your vehicle been damaged by fire or vandalism? Has your vehicle or its license plates been stolen?

There's only one thing to do:

Contact the assistance, 7 days a week, 24 hours a day
In Belgium or abroad at:
+32 2 895 06 09

To facilitate your treatment, please have the following information to hand:

- License plate number
- Description of your precise location
- Description of the problem
- Telephone number where you can be reached

Before calling for assistance, please complete the following formalities yourself:

- **In the event of an accident**, complete the European accident report form and have the other party sign it. If there are injuries, if the other driver has committed a hit-and-run, or if the other party refuses to sign the form, always notify the police on the emergency number 112.
- **In the event of theft or attempted theft**, have police report drawn up. When abroad, you must make a declaration to the local authorities and, on your return to Belgium, have police report drawn up immediately.

Please send the accident report form or the police report to the AIOI insurance company by e-mail to the following address as soon as possible: info@aioinissaydowa.eu, with a copy to accident@kinto-mobility.be, so that it can be informed immediately of any damage to the car.

2. Assistance in Belgium (if provided for in the contract)

2.1. On-site repairs

2.2. Towing

If it is impossible to carry out a permanent or temporary repair, the assistance will take care of transporting the immobilized vehicle to an approved Toyota/Lexus garage / body shop / tire center.

2.3. Replacement vehicle

- If the immobilized vehicle is towed away due to a technical or mechanical breakdown or theft of official license plates, the assistance provides a replacement vehicle (cat.A) for the duration of the repair, up to a maximum of 3 working days.
If you have opted for the additional 'Replacement vehicle' service, this can be extended beyond 3 working days, subject to KINTO Belgium's agreement.
- In the event of theft or accident resulting in immobilization of the vehicle, the assistance provides a replacement vehicle (cat.A) for the duration of the repair, up to a maximum of 30 successive days.
